# Where We Fit In

- We're a group of longtime friends who attend Trinity Christian Academy together
- We traveled to Guatemala with Orphan Outreach in May alongside our moms to serve the children in Chimaltenango who attend the CCC
- While we were there, we learned that Guatemala has one of the world's highest rates of child malnutrition
- Nearly 50% of the Guatemalan children under 5 suffer from chronic malnutrition (according to UNICEF) and in some rural areas, that number is as high as 80%
- The malnutrition crisis has worsened since Covid and as a result of the hurricanes Eta and Iota in 2020

## Why is the CCC important to us?

- We saw first-hand the joy being at the CCC brings the students - they are learning and playing and being loved and cared for
- The CCC also provides nutritious meals and snacks to each student while they are at the facility, which might be the only meal of the day for some students
- While we were at the CCC in May, they learned that they had suffered an \$18,000 budget deficit
- We came home and decided we had to make up that money ourselves, which is why we're here

## Help Feed These Children NOW!

- The Guatemalan children cannot reach the goal of education if they are hungry
  - We have committed to raise \$18,000
  - Please help us reach this important goal
